SafeNet MobilePASS Token

Enrolling and Activating MobilePASS Token On Mobile Phones

1/8/2016

IGATE is now a part of Capgemini

People matter, results count.

Assign MobilePASS Token

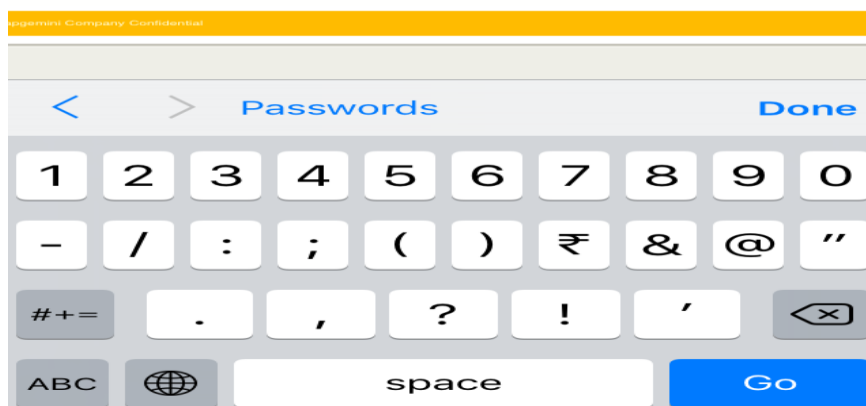

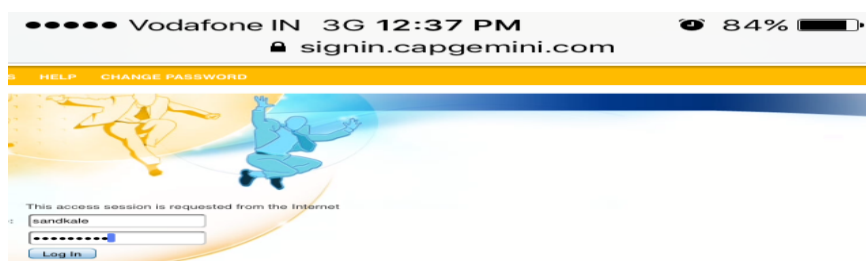

Prerequisite: You need have your Capgemini CORP Domain username and password available with you. You can request it from IGATE Unified service desk if you do not have it.

From your Mobile phone browser

1. Access <http://selfportal.capgemini.com>

2. The next screen will be Capgemini Sign-in page and you will be prompted for username and password. Key-in your **Capgemini CORP Domain username and password** and Log In.

3. Self Portal page will be displayed as below. On this page Select “Assign MobilePASS Token” from the Actions menu available on the right hand side of the page

The screenshot shows the SafeNet Self Service Portal interface. At the top, the browser address bar displays `selfportal.capgemini.com`. Below the header, the user's name "Kale, Sandeep" is shown. The "User Account" section lists details: LoginID: sandkale, Container: India, State: Active, and Active Authentication Type: None. To the right, an "Actions" menu is visible, containing links for My Account, Assign Hard Token, Assign MobilePASS Token, Revoke Token, Assign Static Password, Revoke Static Password, Test Token Password, and Tokens Instructions. The bottom of the screen features a navigation bar with icons for back, forward, home, and other functions.

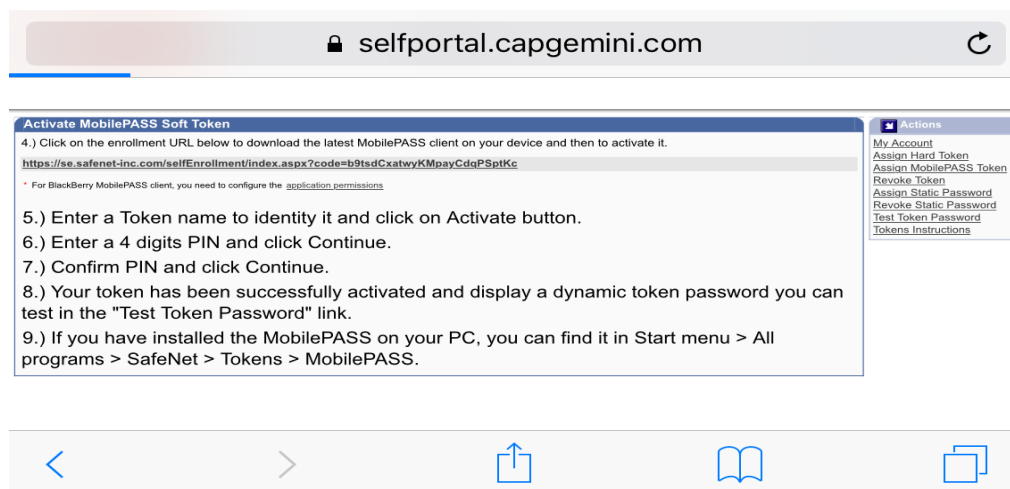

4. On the next Screen as below, Click on the Add Value button and select your date of joining from the calendar. Date of Joining will be displayed as DD/MM/YYYY.

Next enter your Manager's Last Name and click on the “Save” button

Note: If you are not aware of your date of Joining and /or Your Manager's last name, please contact your Manager / BU HR.

The screenshot displays the "Assign MobilePASS Soft Token" page. It begins with instructions: "Follow the instructions below to successfully assign your MobilePASS Soft Token: 1.) Click on the Add Value button and select from the calendar the day you started with Capgemini. The start date will display as DD/MM/YYYY. 2.) Enter your manager last name. 3.) Click on the Save button to request a MobilePASS enrollment provisioning task. Then follow instructions on next page or in the automatic mail you will receive from SafeNet." Below the instructions, the "Identity Validation" section contains a "Start Date Validation" field with the value "14/04/1997" and an "Add value" button. The "Manager LastName" field contains the letter "M". A "Save" button is located at the bottom right of the form. The right side of the page features the same "Actions" menu as seen in the previous screenshot. The bottom navigation bar is also present.

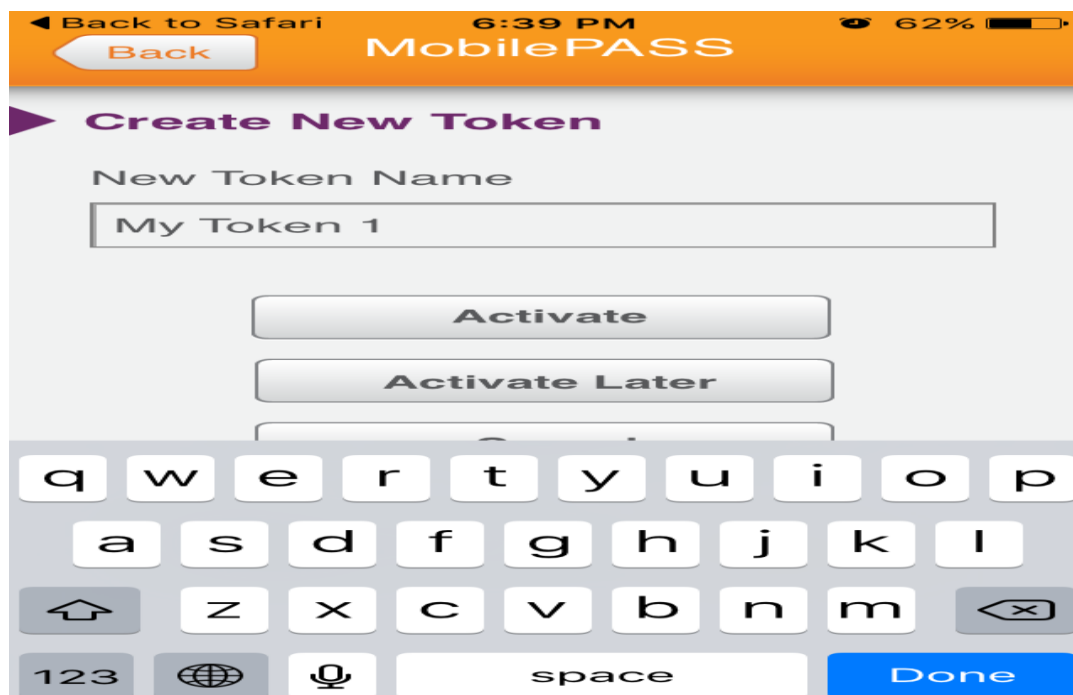

- On the next screen, click on the enrollment URL to proceed Enroll the MobilePASS token on your Laptop. You will also receive an e-mail from SafeNet Authentication server with the same enrollment URL. You can use either one of them to proceed for enrollment.

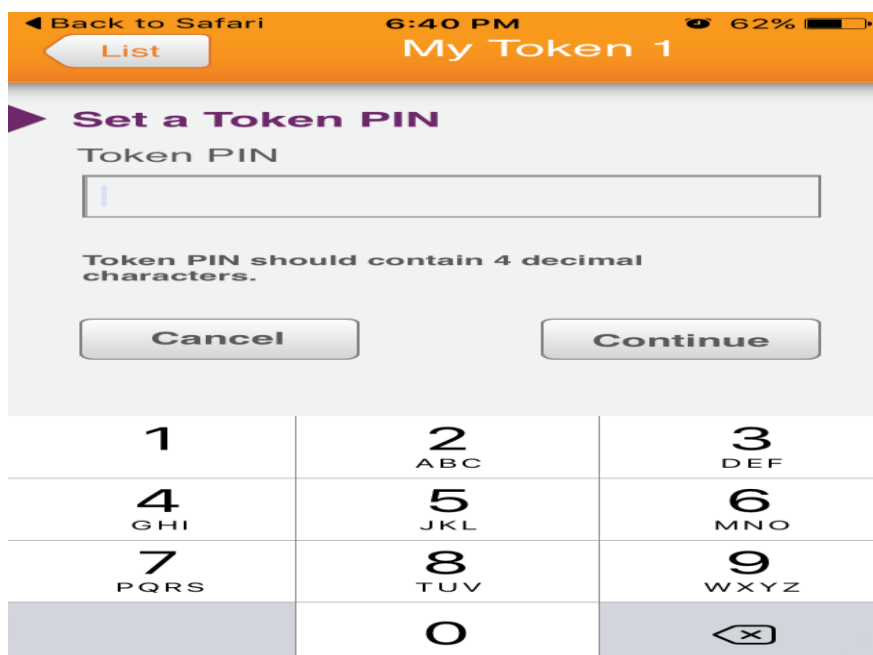

- The Enrollment URL will open the page as seen below. Download the MobilePASS Application. This will open up your respective Phone Platform Store (IOS, Android or Windows). Install the SafeNET MobilePASS app on the phone. Once the installation complete click on the **Enroll your MobilePASS token**.

7. Enter a Token name to identify it and click on Activate button. The Token name can be any name that you wish. It could be your First name or your last name or a generic name such as My Token 1.

8. Enter 4 digits PIN and click Continue. This is similar to your ATM / Credit card PIN. Please memorize and do not store/save it anywhere.

9. Confirm PIN by reentering and click Continue.

The screenshot shows a mobile application interface titled "My Token 1". At the top, there is a status bar with "Back to Safari", "6:40 PM", and "62%". Below the status bar is a navigation bar with a "Back" button. The main content area is titled "Set a Token PIN" and contains the instruction "Re-enter Token PIN". Below this is a numeric keypad with digits 1 through 9, 0, and a backspace button. The "Continue" button is located at the bottom right of the keypad area.

10. Your token has been successfully activated and displays a dynamic passcode. You can test in the "Test Token Password" link on the SelfPortal Web page.

The screenshot shows the "My Token 1" screen. At the top, there is a status bar with "Back to Safari", "6:40 PM", and "62%". Below the status bar is a navigation bar with a "List" button. The main content area displays "Your Passcode" followed by the dynamic passcode "331349". Below the passcode is a button labeled "Tap here to Copy Passcode". At the bottom of the screen, there is a "Generate Passcode" button, the SafeNet logo, and the text "THE DATA PROTECTION COMPANY".

11. Once you have tested the token you are ready to browse the applications over the internet from your IGATE Laptop. Follow these steps to access <http://talent.capgemini.com> over internet.
 - a) Type <http://talent.capegemini.com> in your browser & You will get the sign-in page. Enter your IGATECORP Login ID as username.
 - b) Open the SafeNET MobilePASS App on your Mobile. Enter the 4-digit secret PIN that will generate a random 6-digit passcode. Type this passcode in the password field and enter to continue.
 - c) You are now logged onto the Talent over Internet. As mentioned in the e-mail all Capgemini Applications and a few IGATE applications will be accessible over the internet only via the above dual factor authentication process.

Note: It is recommended that you change your Capgemini CORP Domain password that was provided to you by Unified Service Desk immediately, by browsing the site <http://mypassword.capgemini.com>
